SKU: 12230 | **Categories:** [Processing / Stirring vessel](#), [Tank / reactor / vessel](#)

PRODUCT DESCRIPTION

Manufacturer: 3C France

Year : 1998

Type : Process skid with 1 reactor / vacuum mixer and 1 melting tank

Previous application: pharmaceutical (coating solution)

A - Reactor / Main vessel

Total volume: 1142 litres

Pressure: - 1 / 2.4 bars

Temperature : 144 °C

Jacketed volume: 98 litres

Pressure: 2.5 bars

Temperature : 142 °C

Mixel agitation: 2 deflocculators Ø260 mm

Motor : 11 KW (1500 rpm)

Sample intake

Washing ball

Level probe

Inspection hatch, porthole, light

B - Melter

Total volume: 152 litres

Pressure: - 1 / 2.1 bars

Temperature : 114 °C

Jacketed volume: 24 litres

Pressure: 2.5 bars

Temperature : 148 °C

Agitation: 1 tank bottom deflocculator Ø125 mm

Motor: 2.2 KW (3000 rpm)

Washing ball

Level probe

Sample intake

Inspection hatch, porthole, light

Additional accessories :

- Dosing pumps
- Circulation pump
- Flow meters
- Controllers
- Electrical cabinet with PLC and speed drives

Access footbridge

Batch of spare parts available (gaskets, seals, etc.)
