ATLAS CI4000 - WEATHERING TESTER

Customers rate us on Guaranteed Reviews Company, have a look at their feedback.

SKU: 11895 | **Categories:** Analysis equipment for laboratory, Heating and cooling unit, Laboratory machines, Oven / Heat chamber

PRODUCT DESCRIPTION

Manufacturer : ATLAS / AMETEK
Model: CI4000 Xenon Weather-Ometer
Year : -
Type: Laboratory weathering chamber via simulation of environmental constraints.
Use: laboratory ageing instrument to predict the lifetime of materials / products. (= acceleration of ageing).

Documentation : **133_mmcg_ci4000.pdf**

Rotating sample rack .
Water-cooled xenon arc lamp system, 6,500 W.

contact@osertech.eu / +33 2 37 90 28 78

Front and rear spraying of samples.
Direct settings and control: irradiance, temperatures, humidity.
Complies with CE, UL, ISO, EN and CSA safety requirements.

Height: 198 cm
Width: 127 cm
Depth: 102 cm
Floor area: 148 cm x 274 cm
Total display area: 6500 cm2

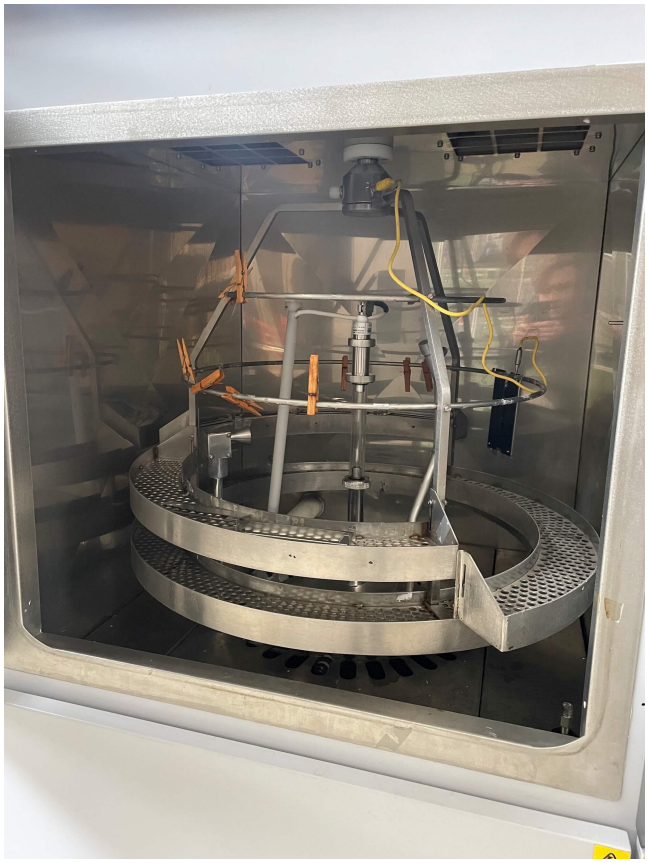

Example of business sectors :

* Additives and dyes
* Adhesives and sealants
* Food and beverages
* Packaging
* Paints and coatings
* Photovoltaic solar energy
* Plastics / polymers
* Textiles
