

BSI - BIG BAG LIFTING JIB CRANE

 Customers rate us on Guaranteed Reviews Company, [have a look at their feedback.](#)

SKU: 11772 | **Categories:** [Industrial transfer / conveying equipment](#), [Mast, gallows and column](#)

PRODUCT DESCRIPTION

The lifting jib / gallow is made up of two U-shaped profiles, held parallel by spacers in which a trolley on rollers moves, supporting the fork equipped with a sack support frame with shaking system and two rotating mixing arms.

The assembly pivots at the bottom.

Limit switches.

Control via console.

Characteristic :

Max. gripping load: 800 DaN

Max. stroke: 3500 mm

Lifting speed: 2.5 m / min

Max. angle of rotation between mechanical stops 320°.

Rotation speed: 1.27 rpm

Shaking speed: 204 strokes / min

Massage speed: 0.9 s at 10h per stroke

Voltage: 380 V - 50 hz

Power: 1 kW

Air: 6 bars - 1.5 m³ / min

Floor load: 2500 daN

Minimum resistance of the floor covering 72 daN/cm²

Tilting torque 1560 m.daN

Effort on head grip : 310 daN
