PRODUCT DESCRIPTION

Manufacturer: Heraeus

Model: Suprafuge 22

Year : 1988

Type : Refrigerated centrifuge

For complex separations in biochemistry and industry.

- 22300 rpm (60600 g) with 8 x 50 ml rotor

- 12000 rpm (26080 g) with 6 x 500 ml rotor

This high-powered centrifuge is designed for high speeds and large capacities. It is controlled by a microprocessor equipped with an induction motor and an oversized cooling unit.

- 32 memorisable programmes
- 9 acceleration and braking profiles
- Automatic rotor recognition
- 380 V three-phase / 4.2 kW power
- Dimensions 1178 x 800 x 905
- Weight 330 kg
