 Customers rate us on Guaranteed Reviews Company, [have a look at their feedback.](#)

SKU: 11778-3 | **Categories:** [Blower / Cleaner for bottle](#), [Cleaning and washing machine](#)

PRODUCT DESCRIPTION

- Max. output: 200 u / min
- 380 V / 50 Hz / 3.5 kW
- Previously used formats: 200 ml and 370 ml bottles
- Size changeover by clamping bottles.
- External vacuum unit included with the machine.
- Equipment for dry cleaning of glass or plastic bottles that does not require washing with water, but the simple removal of the impurities it contains, solid particles and powders can be removed with air jets. The machine essentially consists of a carousel where the bottles are subjected to air jets and impurities are sucked out.

For a better guarantee of purity, the air is filtered at the inlet. The impurities extracted by the Hoover are captured by a filter and collected in a special tank;

History, documentation and electrical diagram available. Spare parts available.
