

MULTIVAC TE130 - AUTOMATIC DRYING TUNNEL

 Customers rate us on Guaranteed Reviews Company, [have a look at their feedback.](#)

SKU: 11818 | **Categories:** [Dryer](#), [Other dryers](#)

PRODUCT DESCRIPTION

The TE 130 automatic drying unit allows efficient drying of large batches as well as voluminous and heavy packages. The automatic adjustment of the drying nozzles ensures an optimum drying result, even for products of different sizes. Thanks to the efficient nozzles, products and packages are not subjected to unnecessary heat. In complete packaging lines, our drying tunnels are positioned directly after the shrink units.

Drying method: Air

Operating principle: Pass-through tunnel

Products: Pouches, thermoformed packaging, trays, etc.

Maximum product dimensions W x D x H in mm: variable x 800 x 300

Maximum weight in kg: 80

Capacity in m/min: 4 - 10

Machine dimensions W x D x H in mm: 1,500 x 1,480 x 1,600

Working height/belt height in mm: 840 ± 45

Equipment :

Steam outlet

Control panel

Feed belt

Pressing belt

Transport belt

Ventilation nozzle

Exit belt

Water drain
