SKU: 12110 | **Categories:** [Heat exchanger](#), [Pasteuriser / UHT Treatment](#)

PRODUCT DESCRIPTION

Manufacturer: Cozinox

Type: Pasteurisation skid

Year : 2021

Hot water heating by 3 heating elements 12 KW, atmospheric pressure, power regulation.

Electrical cabinet with PLC programming, regulation of hot water temperature, pasteurisation, instantaneous flow, product volume, hot water temperature, production/washing cycles.

Hygienic centrifugal pump controlled by variable frequency drive, flow rate 2000 to 8000 l/h.

Electromagnetic flow meter

Manual valves on main circuit

Pneumatic valve to divert milk in the event of incorrect temperature.

Plate heat exchanger with clip joints, stainless steel frame 3 heat exchange zones (hot water/product; product/product; chilled water/product)

CIP - Cleaning in place in an automated closed circuit

Installed power: 39 kW

Dimensions: approx. 3000 x 1300 h.2000
